WORK EXPERIENCE

Software Development Intern

Jul 2023 – Dec 2023

Hindalco Industries Limited (Flagship company of Aditya Birla Group)

- Built MLB Digitalization system for weigh scale and weigh bridge with password encryption using Oracle Apex and React.
- Collaborated with senior developers on feature implementation, code reviews, bug fixes, and performance optimizations.
- Participated in system design discussions and contributed to improving overall platform reliability.

Fullstack Development Intern

Aug 2025 – May 2026

Prodiner Solutions Pvt. Ltd.

- Contributed to the development of HRMS and ERP portals using React.js and Express.js.
- Worked as a Full Stack Developer on frontend UI development, backend integration, and feature implementation.
- Participated in system design discussions and contributed to scalable application architecture planning.

PROJECTS

Razorpay Clone | *React.js, Tailwind CSS, Vite*

- Developed a fully responsive Razorpay landing page clone using React.js and Tailwind CSS. Implemented modern UI components and responsive layouts for desktop and mobile devices. Optimized project performance using Vite for faster development and build speed. Structured the application using reusable React components for maintainability and scalability. Added clean styling, SVG assets, and smooth user interface similar to the original Razorpay website. Managed project version control using Git and GitHub.

News Aggregator | *Python, Django, Web Scraping, Apache*

- Developed a news aggregator web application using Django and Python to collect and display real-time news articles from multiple sources. Implemented web scraping techniques to extract news data from Times of India and Hindustan Times. Built backend functionalities for article fetching, data processing, and dynamic content rendering. Handled API integration and server-side operations using Django framework.

Pragati Yojana | *Python, Twilio, LLMs, AI4Bharat Bhashini APIs, WhatsApp API, Speech-to-Text, Text-to-Speech*

- Built an AI-powered multilingual telephony platform using Python and Twilio to help rural users access government schemes. Integrated LLM agents, speech-to-text, and text-to-speech APIs for local language voice assistance. Implemented WhatsApp/SMS notifications, document workflows, and conversational AI support.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering (IoT)

2020 – 2024

Raj Kumar Goel Institute of Technology, Ghaziabad

CGPA: 7.2

Class XII (PCM with Computer Science) Central Board of Secondary Education (CBSE)

2018 – 2020

Nirmala Convent High School, Renukoot

CGPA: 81%

SKILLS

Programming Languages: JavaScript, TypeScript, Python, C++

Frontend: React, Vue.js, HTML5, CSS3, Tailwind CSS, Material-UI

Backend: Node.js, Express.js, RESTful APIs

Databases: MongoDB, PostgreSQL

Tools: Git, Docker, VS Code, Postman, Oracle Apex

Soft Skills: Problem Solving, Team Collaboration, Agile Methodologies

ACHIEVEMENTS

Runner Up – College Hackathon

- Secured runner-up position among competing teams, demonstrating strong problem-solving and rapid prototyping skills under time constraints.

President – Literature and Art Society

- Led the college Literature and Art Society, organized cultural events and fostered creative collaboration among students.
